

Coronavirus

The [government has said](#) that everyone in the UK should now avoid non-essential travel and contact with others.

Suspension of face-to-face activities

Given this guidance we have stopped all face to face services in the community from today (Tuesday 17 March 2020). This does not include our regulated care and support services.

We will continue to follow government guidance. Our number one priority is protecting the health of everyone involved in Action on Hearing Loss and their loved ones.

A message from Mark Atkinson, our Chief Executive

We recognise that this is an extremely difficult time for everyone across the UK. We are working with the government to see how we can best support the 12 million people who are deaf, have hearing loss, or tinnitus in the UK.

As always, I want to say thank you for your support of Action on Hearing Loss. We recognise that this is an extremely difficult time for everyone across the UK, and we want to thank you for continuing to do the amazing work you do.
